

EXHIBIT G

US ENERGY RESOURCES

MOTOR OIL

Delivers value through:

- Meets API Service SM, SL, CI-4 PLUS .
- Excellent varnish, sludge and carbon deposit control.
- Low valve train, ring and liner wear.
- Protects against bearing and bushing corrosion.
- Excellent oxidation control to minimize oil thickening.
- Good high temperature stability.
- Controls oil thickening provides good filterability with newer higher soot producing engine control emissions.
- Resists viscosity loss due to shear.
- Low ash to minimize deposits.

Applications:

- For heavy duty engines
- Also recommended for older engines calling for API Service CF.
- Prime recommendation for mixed fleets.

WARNING: May cause skin rashes and is an extreme eye irritant. Wash thoroughly for any skin contact, flush eyes and seek immediate attention.
